Courage

11th February 2020

Dear Parents and Carers

As you are aware, today is Safer Internet Day, which happens each year to promote the safe and positive use of digital technology for children and young people and inspires a national conversation.

We are celebrating Safer Internet Day 2020 with the theme: "Together for a better internet", #freetobeme. We have had separate Key Stage assemblies today, looking at being ourselves online and highlighting positive uses of technology at a level appropriate to your child's age. In addition, we also explored the role we all play in helping to create a better and safer online community.

The children will continue to cover this theme at other times throughout the week, and this will include watching video clips, listening to stories, and contributing to a whole school display. It would be wonderful if you could discuss their learning with them at home to reinforce the importance of keeping themselves safe online.

To support parents with this topic, Vodafone have created a very good Digital magazine for parents, with tips on how to manage screen time and keeping the children safe. This can be found via the link: <https://cdn.flipsnack.com/widget/v2/widget.html?hash=fh90zaf97>

If you would like any support with further information on keeping your child safe online, please contact Mrs Murrell or Mr Trotter, who will be able to help you.

Yours sincerely

Sarah Murrell

Nik Trotter
